

ABIP INSPECTION PROGRAM

GAB offers you a program that is an inexpensive insurance policy against unexpected FCC inspections and is fully recognized by the FCC!

Once you sign up, an FCC approved inspector will inspect your facility and make sure you are in compliance with all FCC regulations. Upon passing, you will be issued a Certificate of Compliance that will, for the most part, grant you immunity from a surprise FCC inspection for the next 3 years.

Your investment is \$250 for the first radio station with \$100 for each additional radio station housed in the same facility, and \$450 for the first TV station and \$180 for each additional TV Station housed in the same facility.
